After Visit Summary

Introduction:

Thank you for choosing **UND Health** for your recent medical appointment. This After Visit Summary is tailored to provide you with a concise yet comprehensive overview of your visit, encompassing diagnoses, treatments, prescribed medications, and key recommendations discussed during your consultation. We encourage you to review this summary attentively and reach out to us should you have any queries or concerns.

Patient Information:

Name: **John Doe**
Date of Visit: **March 1, 2024**
Clinic/Practice: **UND Main Clinic**
Address: **123 Demers Ave, Grand Forks ND**
Phone Number: **(701) 896-5214**

Diagnoses:

During your visit, the primary diagnosis identified was **Viral URI**. This diagnosis was arrived at after a thorough examination and discussion with your physician.

Treatments:

Your treatment plan encompasses **Benzonatate**, which involves **taking 1 dosage as needed for 7 days**, and **Albuterol HFA**, which focuses on **suppressing the cough**. These treatments were prescribed to address the underlying condition and alleviate associated symptoms effectively.

Medications Prescribed:

To support your treatment plan, the following medications have been prescribed:

- Benzonatate: **5 mg**, to be taken **as needed for 7 days**.
- Albuterol: **240 inhalers**, to be taken **when shortness of breath occurs**.

Follow-Up Instructions:

To monitor your progress and ensure optimal health outcomes, it is recommended to schedule a follow-up appointment with **Jane Smith** on **March 5, 2024**. During this follow-up visit, further assessment and adjustments to your treatment plan, if necessary, will be discussed.

Important Recommendations:

Your medical history and current condition, it is advised to **limit physical activity**, which will contribute to your overall well-being and treatment effectiveness. This recommendation is based on the thorough assessment conducted during your visit and aims to address specific concerns identified during the consultation. Implementing this recommendation will not only enhance the effectiveness of your treatment plan but also promote long-term health and wellness. Your physician believes that incorporating this recommendation into your healthcare routine is essential for achieving optimal outcomes and managing your condition effectively.

Additional Notes:

Your physician has noted **increased sickness occurrences**, which may include dietary suggestions, lifestyle modifications, or precautions to be taken. Please adhere to these recommendations for the best possible health outcomes.

Conclusion:

In conclusion, this After Visit Summary serves as a comprehensive guide to your recent medical consultation at **UND Health**. By providing clear information on diagnoses, treatments, medications, follow-up instructions, and important recommendations, it empowers you to actively participate in your healthcare journey. We remain committed to your well-being and encourage you to engage with us for any further assistance or clarification. Your health is our priority, and we look forward to continuing to support you in achieving optimal health outcomes.
